Steve,

Thanks for highlighting those two things.

Alan, Don, and Allison,

I am not “replying to all” because (1) I am unfamiliar with all of the recipients on the distribution and (2) my proposed edits and comments are really directed to you three (so on a “need to know” basis, you are the three who need to know). I’m only sending this as URGENT because I know that Christine’s timing request is very tight.

Two things I wanted to highlight:

**Subject:** my comments on the merged "Gaps" document

Don,

Very well done in merging the documents. My comments are attached and highlighted in red. I do think we need to discuss concerns raised in the Herbicides section, but I'll save my thoughts for tomorrow. Again, thanks for the quick turnaround.
